Luxury, great looks and long-lasting good times are the privileges of membership when you install high-performance Clubhouse decking by The Tapco Group

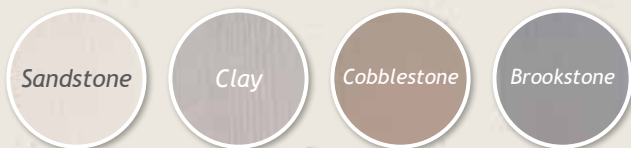

In the brightest sunshine or in the coolest shade, Clubhouse makes a statement with an exceptional natural wood look with deep grain embossing, in two stunning collections for members only:

The Hardwood Collection

Four distinctive variegated grains that mix or match to give your Clubhouse a truly unique feel that's all your own.

The EarthTone Collection

Four style-driven solid shades that bring the look of painted luxury without the need for painted maintenance. A bright way to set the mood with a backdrop of color.

INTEGRATED DESIGN OPTIONS

Clubhouse also provides members with a unique set of design options.

- Clubhouse decking offers a choice of board styles – Solid and hidden fastener options for picture perfect installation.
- The dual-color, dual-embossed planks provide multiple design options with one board!
- Clubhouse offers a wide range of solid and variegated colors. Low-gloss, woodgrain finish also helps with skid resistance.

What makes Clubhouse the hottest club in decking circles?

It's the innovation behind the beauty.

- Clubhouse decking is 100% PVC and contains no wood or wood fillers... and no wood related problems like insect damage or rot.
- Up to 25% lighter than most wood composites.
- Cool pigment technology helps reduce heat buildup for a more comfortable feel.
- Our proprietary Korelite™ technology creates a unique, dense cell structure providing superior strength and a more solid under foot feel than the competition. Korelite also helps keep moisture out and reduces the opportunity for degradation from mold, mildew, freezing, and thawing.
- The industry-leading and time-tested proprietary capstock technology protects your Clubhouse deck from the harsh effects of the sun including UV resistance and fade protection, resistance to cracking and brittleness, and surface degradation.
- Clubhouse decking features a limited lifetime warranty with 25-year fade and stain protection backed by The Tapco Group.

The result is a handsome, hardworking addition to any home that will withstand the harsh effects of any climate and retain color and grain. And always cleans up easily with common household cleaners.

*Clubhouse Decking is
CCRR-0175 code-approved
and neighborhood friendly.*

CLUBHOUSE[®]

SUSTAINABILITY

When you select Clubhouse, you are making a commitment to environmental sustainability and earth-friendly practices.

- Clubhouse decking is 100% recyclable.
- Clubhouse's rich colors and exceptional wood grain look never require painting or staining.
- Clubhouse decking does not require harsh chemicals to clean and maintains its fresh look for years to come.
- Environmentally-safe capstock is formulated to withstand the harsh effects of weather and ultraviolet light ensuring a long lifespan.

It's one more step in doing our share to protect the environment.

CLUBHOUSE[®]

DECKING

Complete the picture with an easy-to-install solution that's designed to show off premium Clubhouse Decking.

The hidden Clubhouse Fastening System includes the Clubhouse ConnectClip to leave deck surfaces completely unmarred and the seamless Clubhouse Cortex[®] plug for perimeter areas and stairs.

Also, the Clubhouse Hidden Fastener Biscuit option acts like a tongue, simultaneously spacing the deck boards and holding them down. The biscuit comes in two packaging options and a longer screw for enhanced installation.
