

# THE COMPLETE PACKAGE

## CLUBHOUSE RAILING

Clubhouse Railing is beautifully engineered, longer-lasting than painted wood could ever be, and backed by a limited lifetime warranty with 25-year fade and stain coverage.

Clubhouse Deck & Rail products are code approved. (See Code Compliance Research Reports 0175, 0178, 0185.)

## DETAILS THAT MAKE A DIFFERENCE

A wide variety of stylish lighting options available.

## CLUBHOUSE FASTENING SYSTEM

Clubhouse hidden fasteners include the Clubhouse ConnectClip, Clubhouse Cortex® plug and the Clubhouse Hidden Fastener Biscuit. Clubhouse decking is also code approved for use with all leading fastening systems, including HIDfast.

# THE NEXT GENERATION OF DECKING

55 years of manufacturing experience. Field-tested, proven technologies. Engineered to perform.

With unrivaled performance and long-lasting good looks, Clubhouse promises a fresh, innovative approach to outdoor living.

1

## Sunshield® Color Technology

Clubhouse Decking is made with Sunshield® technology, tested and proven in the field for more than 30 years. Sunshield is at work in products on more than 5 million homes in North America.

Designed to stand up to the harsh effects of UV, rain and humidity, Sunshield helps keep colors looking deep and rich for longer.

Test results: Xenon 1000 Hours

BEFORE  
AFTER

Ipe Walnut Ironwood Mahogany

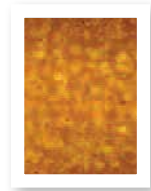

2

## Korelite™

Clubhouse Decking is made with Korelite™ technology, our exclusive, proprietary technology that provides a dense cell structure for superior strength underfoot.

Korelite leverages world-class in-house materials, tooling and manufacturing capabilities. It's engineered for strength, with a higher density top and bottom – just like an I-beam.

The high-performance capstock and foam interior act like a stress skin panel.

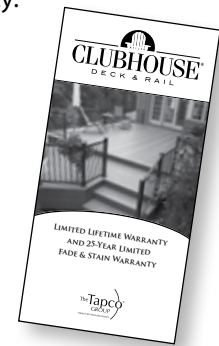

3

## Warranty

Clubhouse Decking is backed by a limited, transferable lifetime warranty with 25-year limited fade and stain warranty.\*

- Warranted to not fade by more than 5 Delta E (Hunter) Units for a period of 25 years pro-rated from date of installation.
- Provides high-level of stain resistance to permanent stains resulting from spills of common food and beverages.

\*See warranty for further details and limitations.

5

## Realistic Woodgrain Finish

Material scientists and tooling engineers developed an authentic woodgrain look that helps with a low-gloss, skid-resistant finish.

Clubhouse Decking's deep grain embossing patterns recreate the warmth and beauty of natural wood. The moving embossing wheel creates a higher level of grain variability.

6

## Dual-Sided Boards

In our single-extrusion process, our PVC core and proprietary blend capstock become one. Both cap and core are made of like material, creating a stronger chemical bond during extrusion.

Additional benefits of the patented dual-sided boards include design flexibility (borders, framing, stair treads in different colors), lower inventory, and more opportunity to use spare boards.

4

## Impact Resistance

Clubhouse Decking rivals the performance of the hardest woods available.

Clubhouse Brazilian Hardwood

Clubhouse Competitive Cellular PVC Decking
